## EuroSPI 2022 CHAISE und TERRATECH

The annual **EuroSPI** took place from **31.8-2.9 in Salzburg**. The ECQA was well represented with having the opportunity to present various projects. Jana Faschinger-Sanborn, as well as Marco Nemetz each presented their first paper at the conference. Marco shared insights about their developed [VR walk application](#) and their [Train@Train](#) case study, where an immersive learning environments is used for health and safety training for the Austrian Railway Company (ÖBB).

Jana presented her [paper](#) about blockchain skills in the automotive supply chain, and with the support of Andreas Riel, shared information and the current status of the [CHAISE project](#). If you are interested to learn more about CHAISE's recent achievements, read about them [here](#).

Further, Andreas also presented the current status of the [TERRATECH project](#).

As every year, we really enjoyed participating in the conference and we look forward to next years' conference in Grenoble, France!

# INCREAS

## **INCREAS / Sustainable Places conference 2022, Nice**

Jana and Marco got to Participate at the annual Sustainable Places conference in Nice, where the [Increas](#) & [VI-train](#) project, as well as the VR walk were presented together with Gerald Wagenhofer. The participants got the chance to virtually inspect a wall at the Kartause Mauerbach and go through the VR application. We also looked forward to participating at the VI-Train Multiplier event in Budapest on September 22<sup>nd</sup>.

## SLog 4.0 Kick Off

We are thrilled to share that we are part of another exciting project, which has successfully kicked off mid-September. SLog 4.0 is all about digital and green skills for boosting innovation and sustainability of the logistics sector. The project is set to end in August 2025 and involves 7 different partner organizations from Poland, Turkiye, Italy, Slovenia, Austria and Portugal.

## IMPACT Multiplier Event @EuroSPI 2022

**Digital Accessibility is key.** This was the motto of IMPACT's Multiplier Event at EuroSPI 2022:

More than 150 experts attended this year's conference for European Software Process Improvement and Innovation (EuroSPI), both on-site in Salzburg and online.

On August 31<sup>st</sup>, the European project IMPACT - Inclusive Method based on the Perception of Accessibility and Compliance Testing (<https://impact-access.eu/>) – presented digital accessibility and the competences of ECQA Certified Digital Accessibility Mediators in a EuroSPI key note and within the EuroSPI full day workshop on Accessibility, Challenges in Business Ethics, and Skills and Global Teams (<https://conference.eurospi.net/index.php/en/workshop?id=80>).

A free training course to qualify as ECQA Certified Digital Accessibility Mediators is available at: <http://academy.koena.net/>

# train to validate

## For an Easy-to-Read Internet - an event organized by the Train2Validate Erasmus+ project

The Internet is an integral part of our lives. However, the content is still not accessible to everyone, especially those with reading difficulties.

At our upcoming event on **November 3rd**, we will discuss with experts how Easy-to-Read can contribute to the Internet for all. We will start looking at the Web Content Accessibility Guidelines, and move then to a round table with facilitators, researchers, representatives of end-users associations and an expert in user experience. Lastly, we will dare a leap to the topic of artificial intelligence and Easy-to-Read.

If you want to know more, save the date: November 3rd, 2022 or pre-register at: <https://plenainclusionmadrid.org/train2validate/events/>  
The event will take place face-to-face at the International University of the SDI München ([www.sdi-muenchen.de](http://www.sdi-muenchen.de)).

The event is free; only registration is required.

The full programme will be available soon.
